-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office action is in response to the Amendment filed on 14 September 2007. Claims 7-37 are pending in the application. Claims 1-6 have been cancelled.

Specification

The disclosure is objected to because although Applicant has inserted the required cross reference to parent reissue application Serial Number 09/838,216 in the specification (by the preliminary amendment filed 06 October 2003), the cross reference does not follow the format of the cross reference given in MPEP § 1451(I) and it is not totally underlined as required under 37 CFR 1.173.

37 CFR 1.177(a) requires that all multiple reissue applications resulting from a single patent must include as the first sentence of their respective specifications a cross reference to the other reissue application(s). Accordingly, the first sentence of each reissue specification must provide notice stating that more than one reissue application has been filed, and it must identify each of the reissue applications and their relationship within the family of reissue applications, and to the original patent. An example of the suggested language to be inserted is as follows:

Notice: More than one reissue application has been filed for the reissue of Patent No. 6,071,766. The reissue applications are application numbers 10/678,139 (the present application), and 09/838,216, all of which are divisional reissues of Patent No. 6,071,766.

Appropriate correction is required.

Certificate of Correction

In addition, before the instant reissue application can be issued, a similar cross reference needs to be put into RE38266 via Certificate of Correction. It is requested that Applicant submit the Certificate of Correction in RE38266. An example of suggested language is as follows:

The present reissue patent issued from an application that is one of a family of divisional reissue applications resulting from Patent No. 6,071,766. The present reissue patent has issued without the cross reference to the other reissue application(s) of the family which is required pursuant to 37 CFR 1.177(a). Accordingly, insert in the first sentence of the specification as follows:

Notice: More than one reissue application has been filed for the reissue of patent 6,071,766. The reissue applications are 09/838,216, and 10/678,139.

Oath/Declaration

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The declarations (inventors' and assignee) filed on 06 October 2003 are copies of those filed in parent reissue application Serial Number 09/838,216. A new declaration with a new error being corrected by the present reissue is required. This error must be different from the error corrected by the parent reissue application.

Assent of Assignee

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

Whenever a divisional reissue application is filed with a copy of the oath/declaration and assignee consent from the parent reissue application, the copy of the assignee consent from the parent reissue application should not be accepted. The copy of the consent from the parent reissue application does not indicate that the assignee has consented to the addition of the new invention of the divisional reissue application to the original patent.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

Claim Rejections

Claims 7-37 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

Claims 7-37, presented in the amendment filed on 14 September 2007, do not comply with 37 CFR 1.173(b), which requires the material to be added by reissue to be underlined. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b). In addition, when any substantive amendment is filed in the reissue application, which amendment otherwise places the reissue application in condition for allowance, a supplemental oath/declaration will be required. See MPEP § 1414.01.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Wilczewski whose telephone number is (571) 272-1849. The examiner can normally be reached on Monday-Thursday.
